

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Functional training [C_CS>TF30]

Course

Field of study

Aviation

Year/Semester

1/2

Area of study (specialization)

Aircraft Engines and Airframes

Profile of study

general academic

Level of study

first-cycle

Course offered in

Polish

Form of study

full-time

Requirements

elective

Number of hours

Lecture

0

Laboratory classes

0

Other (e.g. online)

0

Tutorials

30

Projects/seminars

0

Number of credit points

0,00

Coordinators

mgr Łukasz Murdzia

lukasz.murdzia@put.poznan.pl

mgr Agata Ostrowska

agata.ostrowska@put.poznan.pl

Lecturers

mgr Łukasz Murdzia

lukasz.murdzia@put.poznan.pl

mgr Anna Baranowska-Graczyk

anna.baranowska-graczyk@put.poznan.pl

Prerequisites

- no medical contraindications to participate in classes - willingness to learn about exercises and training methods

Course objective

Functional training is a training in which exercises are performed in which the movement is similar to what we do in everyday life. There are many strength exercises (but without such weights as in the gym) and coordination, flexibility, etc. We exercise using TRX tapes, dumbbells, balls, small barbells, rubber bands, etc. Of course, with music. Thanks to the use of all this, our body develops comprehensively. We care about the variety of movements and loads, that's why everyone will find something for themselves in these classes ... of course, fatigue is indispensable in functional training, which we will not avoid ;) but the end result is worth sacrificing

Course-related learning outcomes

The student knows the basic muscle groups and acquires the knowledge of how to perform exercises correctly and safely
 Knows the exercises that he can safely perform on his own
 Is aware of the balanced and harmonious development of his body
 Knows the basic objectives and principles of warm-up
 Performs correctly exercises in supports, using available equipment and instruments
 Is able to select training volume
 Acquires awareness of his/her body to skillfully select exercises for its formation and proper development.

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Completing the course is achieved through active and regular participation in classes.
 Two absences are possible without the obligation to make up or justify 30 hours per semester.
 The student is obliged to make up for remaining absences and short-term sick leave in consultation with his/her teacher.
 It is possible to complete two classes a week.
 You can participate in physical education classes no more than once a day.
 Classes must be made up on a day other than the scheduled classes.

Programme content

Principles of exercise during functional training
 strength exercises with own resistance
 coordination exercises
 flexibility exercises
 exercises using equipment
 shaping strength, efficiency, speed

Course topics

Functional Training as a set of exercises in which movement is similar to activities in everyday life
 strength exercises (mainly with own resistance)
 coordination exercises
 flexibility exercises
 exercises with TRX tape
 exercises using dumbbells, balls, small barbells, bands, etc.
 developing strength, efficiency and flexibility

Teaching methods

- verbal description
- show
- practical exercises

Breakdown of average student's workload

	Hours	ECTS
Total workload	30	0,00
Classes requiring direct contact with the teacher	30	0,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	0	0,00
