

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Resolving conflict [S2ZiIP2>RoKo]

### Course

Field of study

Management and Production Engineering

Year/Semester

1/2

Area of study (specialization)

Production control

Profile of study

general academic

Level of study

second-cycle

Course offered in

Polish

Form of study

full-time

Requirements

compulsory

### Number of hours

Lecture

15

Laboratory classes

0

Other (e.g. online)

0

Tutorials

15

Projects/seminars

0

### Number of credit points

2,00

### Coordinators

dr hab. inż. Ewa Więcek-Janka prof. PP  
ewa.wiecek-janka@put.poznan.pl

### Lecturers

### Prerequisites

Basic knowledge of humanities at secondary school level Basic skills in analyzing and searching for information for professional practice Recognizing the importance of managerial skills as a component of effective functioning in the professional and social environment

Session 5: Managerial Responsibility  
Objective: Understanding the role of responsibility in managerial work.  
Course Content:  
What is managerial responsibility.  
Examples of the consequences of lack of responsibility.  
Teaching Methods: Lecture and case study analysis.

Session 6: Management Integrity  
Objective: Understanding the value of integrity in management.  
Course Content:  
What is integrity.  
Impact of integrity on trust within a team.  
Teaching Methods: Presentation, case study analysis.

Session 7: Managerial Flexibility  
Objective: Understanding the importance of flexibility in management.  
Course Content:  
Definition of flexibility.  
Examples of flexibility in management.  
Tools to support flexibility.  
Teaching Methods: Lecture, discussion, group exercises.

Topic 2: Philosophy of Continuous Improvement (5 hours)

Session 1: Identifying Small Problems  
Objective: Understanding the importance of small problems in an organisation.  
Course Content:  
What are small problems.  
How to identify small problems.  
Practical examples from business practice.  
Teaching Methods: Lecture, case study analysis, and practical exercises.

Session 2: Achieving Small Goals  
Objective: Learning to set and achieve small goals.  
Course Content:  
Techniques to set small goals.  
Examples of small goals and their realisation.  
Benefits of achieving small goals.  
Teaching Methods: Presentation, practical exercises, group work.

Session 3: Pragmatism of Small Thoughts in the Context of Visualising Results  
Objective: Developing skills to visualise small, pragmatic goals.  
Course Content:  
Definition of pragmatism.  
Tools to visualise small results.  
Practical examples of visualisation.  
Teaching Methods: Lecture, practical exercises, group work.

Session 4: Identifying Minor Problems as an Opportunity for Continuous Improvement  
Objective: Understanding how minor problems can lead to continuous improvement.

#### Course Content:

Definition of minor problems.

Examples of minor problems and ways to solve them.

Tools and techniques for continuous improvement.

Teaching Methods: Lecture, case study analysis, group exercises.

Session 5: Small Rewards in the Context of Motivation to Address Minor Problems

Objective: Understanding the role of small rewards in motivating to solve minor problems.

#### Course Content:

Definition of small rewards.

Examples of small rewards and their impact on motivation.

Strategies for applying small rewards.

Teaching Methods: Lecture, case study analysis, discussion.

Topic 3: Principles of Efficient Managerial Actions in the Context of Conflicts (5 hours)

Session 1: Organised Action Cycle and Execution of Managerial Functions

Objective: Understanding the organised action cycle in conflict management.

#### Course Content:

What is the organised action cycle?

What are the managerial functions in conflict management.

Teaching Methods: Lecture, practical exercises, case study analysis.
