

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Polish [S2AiR1E-ISLiSA>JPol2]

Course

Field of study

Automatic Control and Robotics

Year/Semester

1/2

Area of study (specialization)

Smart Aerospace and Autonomous Systems

Profile of study

general academic

Level of study

second-cycle

Course offered in

English

Form of study

full-time

Requirements

elective

Number of hours

Lecture

0

Laboratory classes

0

Other

0

Tutorials

30

Projects/seminars

0

Number of credit points

2,00

Coordinators

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Learning outcomes presented above are verified as follows:

Formative evaluation: ongoing evaluation during the class (presentations, colloquia)

Summative evaluation: a passing grade

Programme content

During the course, students learn Polish from scratch to communicate efficiently in basic everyday situations.

They read and analyze simple texts in Polish and improve their listening comprehension skills.

They become familiar with Polish culture, history and traditions and customs.

They learn vocabulary for everyday activities, interests, expressing opinions, weather forecasts and situational dialogues (street, shopping mall, museum, information center).

Intercultural differences are an important part of the course.

Course topics

none
