

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Psychology of communication [S2Elmob1>PO2-PK]

Course

Field of study

Electromobility

Year/Semester

1/2

Area of study (specialization)

Energy Processing Systems

Profile of study

general academic

Level of study

second-cycle

Course offered in

Polish

Form of study

full-time

Requirements

elective

Number of hours

Lecture

15

Laboratory classes

0

Other

0

Tutorials

0

Projects/seminars

0

Number of credit points

1,00

Coordinators

Lecturers

Prerequisites

The student has basic knowledge of humanities subjects. The student has the basic ability to perceive, associate and interpret the phenomena occurring in social groups.

Course objective

To acquire knowledge and skills in understanding, analyzing and improving communication processes. Learning about psychological mechanisms that affect the effectiveness of communication between people. Developing communication skills. To become aware of the influence of culture, emotions and motivation on communication processes. To raise awareness of the role that interpersonal and group communication plays in professional life and to emphasize the role of effective communication in various situations of professional life.

Course-related learning outcomes

Knowledge:

1. Students are able to obtain information related to the topic of psychology of communication from various sources, interpret it, critically evaluate, analyze and synthesize it, and draw conclusions.

[K2_U02]

Skills:

- 1 The student is able to prepare and give a presentation on the implementation of a task related to the topic of psychology of communication. [K2_U13]
2. The Student is able to determine the directions of further learning, organize the process of self-education and indicate the directions of professional development in the field of communication psychology. [K2_U16]

Social competences:

1. The student is aware of the need to follow professional ethics. [K2_K04]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

formative assessment:

- knowledge is verified through a short problem task realised on the fourth teaching unit;
- skills and social competencies are verified through the issuance of partial grades, resulting from: working in teams (taking responsibility for decisions made); rewarding activity; solving the problem independently.

summative assessment:

- knowledge is verified through a colloquium at the last teaching unit. The colloquium consists of 10-20 questions (test and open), variously scored. Passing threshold: 50% + 1.

Grading scale:

- 0 - 50 pts - 2.0;
- 51-60 pts - 3.0;
- 61-70 pts - 3.5;
- 71-80 pts - 4.0;
- 81-90 pts - 4.5;
- 91-100 pts- 5.0

Programme content
