

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

A Basic Course in Health and Safety [S2FT2>BHP]

### Course

Field of study

Technical Physics

Year/Semester

1/1

Area of study (specialization)

–

Profile of study

general academic

Level of study

second-cycle

Course offered in

Polish

Form of study

full-time

Requirements

compulsory

### Number of hours

Lecture

4

Laboratory classes

0

Other

0

Tutorials

0

Projects/seminars

0

### Number of credit points

0,00

### Coordinators

dr inż. Wiktoria Czernecka

wiktoria.czernecka@put.poznan.pl

dr inż. Sebastian Kubasiński

sebastian.kubasinski@put.poznan.pl

### Lecturers

### Prerequisites

The student is able to make responsible decisions and actions in an emergency. Note (\*). - participation of students in classes is obligatory, - second-cycle students who have completed first-cycle studies at the Poznań University of Technology no later than in the last two years do not have to participate in the training, provided that they showed the Diploma Supplement, which includes the Short Course in Occupational Safety.

### Course objective

The student recognizes the basic hazards to health and life that are associated with his stay at the University. The student familiarize with the applicable regulations, management, regulations and rules of conduct in the event of hazards to occupational health and safety and fire safety at the Poznań University of Technology.

### Course-related learning outcomes

#### Knowledge:

1. The student has an in-depth knowledge of the legal, ethical, social and psychological aspects taken into account in professional activities in the field of safety engineering, in particular, in the field of occupational safety and ergonomics [K2\_W10].

#### Skills:

1. The student is able to identify changes in requirements, standards, regulations, innovations and technical progress and economic reality and use them appropriately in solving problems in the field of occupational safety, taking into account the principles of ergonomics [K2\_U06].  
2. The student is able to identify and recognize threats in the work environment, assess their impact on the individual, the organization and its intersector, as well as indicate methods of conduct aimed at minimizing the effects of threats taking into account pro-ecological solutions in the area of occupational safety [K2\_U10].

#### Social competences:

1. The student correctly identifies and resolves dilemmas related to the broadly understood safety in the area of work, understands the need to make the public aware of the need for the formation of safety in various areas of organizational functioning [K2\_K02].  
2. The student is ready to initiate actions related to the improvement of work safety taking into account pro-ecological solutions [K2\_K03].

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

#### Formative assessment:

Lecture: on the basis of answers to current questions on the issues discussed during the lecture.

#### Summative rating:

Lecture: credit in the form of a test (20 questions), in which at least one answer is correct (the answer is scored as 0 or 1); the student receives credit after obtaining at least 80% of the possible points. Grading scale in accordance with Part C of the Regulations for First and Second Degree Studies adopted by the Academic Senate of Poznań University of Technology.

### Programme content

Ensuring safety while on the premises of the Poznań University of Technology. Knowing how to behave during an emergency condition.

### Course topics

Selected labor law regulations on occupational health and safety, including:

- (a) the rights and obligations of students and the University in the field of occupational safety and health, as well as liability for violations of OSH regulations and rules,
- b) accidents and diseases,
- c) preventive measures to protect the health of students.

The impact of hazardous, harmful and arduous factors on safety and health. Assessment of hazards occurring in the processes of learning and work, and characteristics of methods of protection against hazards. Problems related to the organization of workstations, taking into account the principles of ergonomics, including workstations equipped with screen monitors and other office equipment. Dealing with accidents and emergencies (e.g., fire, accidents), including the principles of providing premedical first aid to accident victims.

### Teaching methods

Lecture: The subject is conducted in the form of a conventional informative lecture, supported by a multimedia presentation. During the lecture, problem and activation methods are used for the students with the use of didactic films and analysis of typical situations - case study. The lecture can be carried out using distance learning techniques in synchronous mode. Acceptable platforms: eMeeting, Zoom, Microsoft Teams.

### Bibliography

Basic:

1. Statut Politechniki Poznańskiej uchwalony przez Senat Akademicki Politechniki Poznańskiej [Statute of the Poznań University of Technology adopted by the Academic Senate of the Poznań University of Technology] (Uchwała Nr 175/2016-2020 z dnia 10 lipca 2019 r.) [Resolution No. 175 / 2016-2020 of July 10, 2019].
2. Regulamin studiów stacjonarnych i niestacjonarnych pierwszego i drugiego stopnia, uchwalony przez Senat Akademicki Politechniki Poznańskiej [Regulations of full-time and part-time studies, adopted by the Academic Senate of the Poznań University of Technology] (Uchwała Nr 42/2020-2024 z dnia 31.05.2021 r.) [Resolution No. 42 3 / 2020-2024 of May 31, 2021].
3. Rozporządzenie Ministra Nauki i Szkolnictwa Wyższego z dnia 30 października 2018 r. w sprawie sposobu zapewnienia w uczelni bezpiecznych i higienicznych warunków pracy i kształcenia (Dz. U. 2018, poz. 2090) [Regulation of the Minister of Science and Higher Education of 30 October 2018 on how to ensure safe and hygienic working and education conditions at the university (Journal of Laws 2018, item 2090)].
4. Zarządzenie Nr 5 Rektora Politechniki Poznańskiej z dnia 30 stycznia 2023 r., w sprawie szkolenia z zakresu bezpiecznych i higienicznych warunków kształcenia dla studentów, doktorantów i słuchaczy studiów podyplomowych Politechniki Poznańskiej (RO/II/5/2023) [Resolution No. 5 of the Rector of Poznań University of Technology of January 30, 2023 on training in safe and hygienic conditions of education for students, doctoral students and post-graduate students of Poznań University of Technology (RO/II/5/2023)].
