POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

COURSE DESCRIPTION CARD - SYLLABUS

Course name
Elements of professionalism - Professionalism in the context of intrapersonal development
[S1IFar2>EPpwkrintrap]

Course

Field of study
Pharmaceutical Engineering

Year/Semester
1/2

Area of study (specialization)
–

Profile of study
general academic

Level of study
first-cycle

Course offered in
Polish

Form of study
full-time

Requirements
elective

Number of hours

Lecture
0

Laboratory classes
0

Other
0

Tutorials
15

Projects/seminars
0

Number of credit points
1,00

Coordinators	Lecturers

Prerequisites

Basic knowledge of the curriculum for the field of study and future professional tasks

Course objective

The aim is to raise students' awareness of the importance of professional attitudes in pursuing the profession, regardless of the place of employment. Participation in the classes aims to provide the graduate with basic skills and attitudes demonstrating his professional credibility and professionalism, with particular emphasis on the intrapersonal area related to the individual development of the student (self-assessment and analysis of their own educational needs).

Course-related learning outcomes

Knowledge:
1. The student characterizes the concept of professionalism, including the division into its key areas. [K_W22]

Skills:
1. The student lists the basic scientific sources and indicates their importance in solving professional problems. [K_U1]

2. The student develops and gives an oral presentation based on good practices in this field. [K_U6]

Social competences:
1. The student understands the need for self-development according to the chosen career path. [K_K1]
2. The student identifies his own limitations and the scope of knowledge of experts with whom he will be able to establish cooperation in this field. [K_K1]
3. The student characterizes the role of the graduate in securing the health needs of society. [K_K7]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Knowledge is verified in an oral responses and group task. Skills are verified by completing an individual task. Social competences are verified by group and individual tasks as well as in the course of discussions.(stationary or remote form depending on the epidemiological situation).
Students' activity during classes and the correctness of individual and group tasks will be assessed.

Programme content

1. Image building; 2. Shaping assertive attitude; 3. Self-reflection and self-development;
4. Basics of communication; 5. Reliability and credibility in public perception

Course topics

Teaching methods

discussions, case-study, computer work, lecture
