

COURSE DESCRIPTION CARD - SYLLABUS

Course name

Organizational Structures of Contemporary Enterprises [S1IZarz1E>SOWP]

Course

Field of study

Engineering Management

Year/Semester

3/6

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

English

Form of study

full-time

Requirements

elective

Number of hours

Lecture

15

Laboratory classes

0

Other

0

Tutorials

15

Projects/seminars

0

Number of credit points

2,00

Coordinators

dr inż. Edmund Pawłowski

edmund.pawlowski@put.poznan.pl

Lecturers

Prerequisites

Knowledge of Management Basics and Organisation Science

Course objective

Teaching a system of basic concepts used to describe an organization's structure, and teaching models of organization's internal and external structures. Teaching methodology of modeling and designing organizational structures

Course-related learning outcomes

Knowledge:

The student defines basic concepts related to organizational structure and explains its dimensions [P6S_WG_01].

The student classifies different types of organizational structures and describes their characteristic features [P6S_WG_06].

The student identifies the conditions of organizational structure, taking into account legal, cultural, and economic aspects [P6S_WG_03].

The student characterizes the differences between network, virtual, and traditional forms of

organization [P6S_WG_07].

The student determines the impact of organizational structures on the effectiveness of organizations, based on ethical standards and their changes [P6S_WK_01].

Skills:

The student applies methodologies of modeling and designing organizational structures to analyze business cases [P6S_UW_01].

The student interprets the impact of different organizational structures on the effectiveness of enterprise management [P6S_UW_06].

The student analyzes the documentation of organizational structure, using normative tools [P6S_UW_08].

The student conducts a proper analysis of the causes and course of management processes in the context of organizational structures, taking into account the influence of social, cultural, political, legal, and economic factors [P6S_UW_07].

Social competences:

The student demonstrates the ability to make substantive contributions to projects related to organizational structure, considering legal, economic, and organizational aspects [P6S_KO_01].

The student shows awareness of the importance of professional ethics and cultural diversity in creating and managing organizational structures [P6S_KR_02].

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

The knowledge of the lectures is verified during the written test. Written test in two versions: 1/ 5 open questions, 2/ 10 multiple-choice test questions. Maximum number of points = 100. Positive score from 65 points.

Knowledge from the tutorials is verified in two stages: 1/ evaluation of public presentations on the given topic, 2/ evaluation of the final test from the knowledge covered by the tutorials. A maximum of 50 points can be obtained from each part, together 100 points. Positive assessment from 65 points.

Programme content

The essence and dimensions of the organisational structure. Conditions of the organizational structure. Organizational structure and effectiveness of the organization. Classification of organizational structures. External organization architectures (network and virtual structures). Typical organizational structure of a large industrial enterprise. Methodology of organizational structure modeling. Methodology of designing an organization structure. Documentation of organisational structure.

Course topics

none

Teaching methods

1. lecture: Monographic lecture, case studies

2. Tutorials: multimedia presentation illustrated with examples given on the board and the performance of tasks given by the instructor - practical tutorials .

Breakdown of average student's workload

	Hours	ECTS
Total workload	50	2,00
Classes requiring direct contact with the teacher	30	1,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	20	1,00
