

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Practice 1 [S2LiK2P>P1]

### Course

Field of study

Aerospace Engineering

Year/Semester

1/2

Area of study (specialization)

–

Profile of study

practical

Level of study

second-cycle

Course offered in

Polish

Form of study

full-time

Requirements

compulsory

### Number of hours

Lecture

0

Laboratory classes

0

Other

45

Tutorials

0

Projects/seminars

0

### Number of credit points

1,00

### Coordinators

### Lecturers

### Prerequisites

Knowledge: The student has knowledge of the applicable rules for the implementation of internships. Student knows the internship regulations and the conditions for passing them. Has a basic knowledge of the issues covered by the study program. Skills: The student has the ability to creatively use the knowledge acquired during studies Social competences: The student is able to work in a working group. Can transparently distribute tasks in the group. He can correctly interpret and perform the received tasks and is able to make a verbal presentation of the results of his work

### Course objective

Learning about the specifics of the work of the Polish Air Navigation Services Agency

### Course-related learning outcomes

Knowledge:
