

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Preparation of the diploma thesis [S1MiTPM1>PPD]

### Course

Field of study

Materials and technologies for automotive industry

Year/Semester

4/7

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

Polish

Form of study

full-time

Requirements

compulsory

### Number of hours

Lecture

0

Laboratory classes

0

Other

0

Tutorials

0

Projects/seminars

100

### Number of credit points

13,00

### Coordinators

Marek Nowak

### Lecturers

### Prerequisites

The student has the knowledge and skills necessary to complete the diploma dissertation acquired during classes in semesters 1-7

### Course objective

Expanding knowledge and skills on solving engineering problems in the field of automotive industry and the ability to present the results of these works.

### Course-related learning outcomes

Knowledge:

1. The student has basic knowledge of material problems in the automotive industry.

Skills:

1. The student can obtain information from various sources, also in English, and integrate, interpret and critically assess obtained information, draw conclusions as well as formulate and justify opinions.

2. The student can use analytical, simulation and experimental methods to formulate and solve engineering tasks and simple research problems.

Social competences:

1. Student understands the need of the learning by the whole life; can inspire and organize the learning of others.
2. Student is able to determine the priorities for implementation of the specified by yourself or other tasks.
3. The student is aware of social role played by a graduate of technical university and understands the necessity to formulate and provide to the public, especially by means of mass media, information and opinions concerning technological advancements and other aspects of engineering activities; makes an effort to convey information and opinions in such a way that can be commonly understood.

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Completion of the course based on:

- assessment of the diploma thesis presented,
- regularity of its implementation,
- ability to independently technical problem solving skills

### Programme content

Compatible with the topic of the diploma thesis.

### Course topics

Compatible with the topic of the diploma thesis.

### Teaching methods

Discussion with the student about problems occurring during diploma thesis preparation, solving research problems or providing sources in the literature to solve problems.

### Bibliography

Basic:

1. Scientific and technical literature necessary to prepare the thesis
2. Affeltowicz J., Ogólne podstawy pisania technicznych prac dyplomowych : pomocnicze materiały dydaktyczne, Wyd. Politechnika Gdańska, Gdańsk, 1980.
2. Żółtowski B., Seminarium dyplomowe: zasady pisania prac dyplomowych, Wyd. Akademia Techniczno-Rolnicza w Bydgoszczy, Bydgoszcz, 1997.
4. Opoka E., Uwagi o pisaniu i redagowaniu prac dyplomowych na studiach technicznych, Wyd. Politechnika Śląska Gliwice, 1996.

Additional:

1. Dobre obyczaje w nauce. Zbiór zasad i wytycznych (wyd. 3), Wyd. PAN Warszawa, 2001.

### Breakdown of average student's workload

	Hours	ECTS
Total workload	300	13,00
Classes requiring direct contact with the teacher	100	4,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	200	9,00
