

### POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

## **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

English 2 [S2MiBP1>JA2]

Course

Field of study Year/Semester

Mechanical and Automotive Engineering 1/2

Area of study (specialization) Profile of study

Railway Vehicles general academic

Course offered in Level of study

second-cycle **English** 

Form of study Requirements

full-time elective

Number of hours

Lecture Laboratory classes Other 0

0

**Tutorials** Projects/seminars

30

Number of credit points

2,00

Coordinators Lecturers

mgr Izabela Cichocka izabela.cichocka@put.poznan.pl

# **Prerequisites**

The already acquired language competence compatible with level B2 (CEFR). The ability to use general and field specific vocabulary, and grammatical structures required on the first level of studies. The ability to work individually and in a group; the ability to use various sources of information and reference works.

## Course objective

Development of the ability to use field specific language effectively in both receptive and productive language skills. Improving the ability to understand field specific texts. Improving the ability to function effectively on an international market and on a daily basis.

### Course-related learning outcomes

## Knowledge:

Has extensive knowledge of selected departments of technical mechanics related to the selected specialization.

Has a general knowledge of the types of research and methods of testing working machines with the use of modern measurement techniques and data acquisition.

He knows the main development trends in the field of mechanical engineering.

#### Skills:

Can communicate on specialist topics with a diverse audience.

Can write a technical and scientific study in a foreign language on the basis of literature and other sources of information, including internet sources, and present an oral presentation.

Can use the international language in contacts with specialists in his field of study at the B2 + level.

#### Social competences:

He is ready to critically assess his knowledge and received content.

Is ready to recognize the importance of knowledge in solving cognitive and practical problems and to consult experts in case of difficulties in solving the problem on its own.

It is ready to fulfill social obligations, inspire and organize activities for the benefit of the social environment.

# Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Learning outcomes presented above are verified as follows:

Grades for tests (at least 2) and a presentation. Preparation for tutorials and active participation influence the final grade.

## Programme content

Reaching high degree of academic, business and social communication. Revising and extending vocabulary within the scope of: general engineering (lasers, robotics, Maglev train), mechanical engineering (refrigerator).

## **Course topics**

Lasers - description and applications; robotics - an industrial robot/work volume and degrees of freedom/ types of manipulator,/mechanical wrist/stepper motors; portable generator - description/the operation/the four-stroke cycle; Maglev train - description/advantages and disadvantages/the operation; refrigerator - the components and their functions/the operation.

### **Teaching methods**

Classes

## **Bibliography**

Basic

Glendinning, E.H. and Glendinning, N. 2008. Oxford English for Electrical and Mechanical Engineering. Oxford: Oxford University Press.

Additional

Internet based materials

## Breakdown of average student's workload

	Hours	ECTS
Total workload	50	2,00
Classes requiring direct contact with the teacher	30	1,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	20	1,00
