

### POZNAN UNIVERSITY OF TECHNOLOGY

EUROPEAN CREDIT TRANSFER AND ACCUMULATION SYSTEM (ECTS)

# **COURSE DESCRIPTION CARD - SYLLABUS**

Course name

English (specialist language) [S2Trans1-LogTr>JAS]

Course

Field of study Year/Semester

**Transport** 1/2

Area of study (specialization) Profile of study

Logistics of Transport general academic

Course offered in Level of study

second-cycle **English** 

Form of study Requirements

full-time elective

**Number of hours** 

Lecture Laboratory classes Other 0

0

**Tutorials** Projects/seminars

15

Number of credit points

1.00

Coordinators Lecturers

mgr Justyna Połomka justyna.polomka@put.poznan.pl

## **Prerequisites**

Having language competence corresponding to the B2 level according to the description of the levels of language proficiency (CEFR). Mastering grammatical structures as well as general and technical vocabulary required at the 1st cycle studies. Ability to work independently and in a team; ability to use various sources of information.

### Course objective

Improving the ability to use effectively a general academic language and a specialist language appropriate for a given field of study, within the scope of four language skills. Improving the ability to work with a technical text (familiarizing students with basic translation techniques). Improving the ability to function on the international labor market and in everyday life.

## Course-related learning outcomes

#### Knowledge:

The student has knowledge of development trends and the most important of the latest achievements in the area of means of transport and other, selected, and related scientific disciplines.

#### Skills:

The student is able to obtain information from literature, databases and other sources (in Polish and English), integrate it, interpret and critically evaluate, draw conclusions and formulate and comprehensively justify his/her opinion.

The student can communicate in Polish and English using various techniques in a professional environment and in other environments, also using the issues related to transport engineering. The student can prepare and present a scientific study in Polish and English, demonstrating the results of scientific research or an oral presentation on specific issues in the field of transport engineering. The student has English language skills, compliant with the B2+ level requirements of the European Framework of Reference for Languages (CEFR).

### Social competences:

The student understands the importance of popularizing the latest achievements in the field of transport engineering

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Learning outcomes presented above are verified as follows:

Partial marks for tests (at least 2) and presentation. Preparation for classes and activity during classes have an influence on increasing the grade.

### **Programme content**

Developing communication skills in academic, business and social situations. Improving language competence, with particular emphasis on general vocabulary related to the engineering and on specialist vocabulary related to diploma thesis and selected area of study, i.e. transport logistics, low-emission transport, refrigerated transport, road transport and rail transport.

## Course topics

- 1. Logistics
- 2. Logistics services
- 3. Inventory management and procurement
- 4. The importance of good supplier relationships
- 5. Outsourcing production to China
- 6. Handling of goods

### **Teaching methods**

**Exercises** 

# **Bibliography**

### **Basic**

- Grussendorf, M.2013. English for Logistics. Oxford: Oxford University Press.
- Pilbeam, A. / O'Driscoll, N. 2010. Logistics Management (Market Leader). Essex: Pearson Longman.
- Matulewska, A. / Matulewski, M. 2012. My Logistics. Ponań: Instytut Logistyki i magazynowania.
- Bednarska-Wnęk, M. / Kwiecińska, A. 2011. Transport & Logistics. Kraków: Studium Praktycznej Nauki Języków Obcych Politechniki Krakowskiej.

### Additional

- Hanf, B. 2001. Angielski w technice. Poznań: LektorKlett (Pons).
- Ibbotson, M. 2008. Cambridge English for Engineering. Cambridge: Cambridge University Press.
- Williams, I. 2007. English for Science and Engineering. Boston: Thomson.
- Grzegożek, M./ Starmach, I. 2004. English for Environmental Engineering. Kraków: Studium Praktycznej Nauki Języków Obcych Politechniki Krakowskiej.
- Freitag-Lawrence, A. 2010. Business Presentations. London: Longman.
- popular science papers on transport (i.e. internet)

# Breakdown of average student's workload

	Hours	ECTS
Total workload	30	1,00
Classes requiring direct contact with the teacher	15	0,50
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	15	0,50
