

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

German [S1IBiJ1>NIEM3]

### Course

Field of study

Safety and Quality Engineering

Year/Semester

2/3

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

Polish

Form of study

full-time

Requirements

elective

### Number of hours

Lecture

0

Laboratory classes

0

Other

0

Tutorials

30

Projects/seminars

0

### Number of credit points

3,00

### Coordinators

mgr Maja Rakiewicz

maja.rakiewicz@put.poznan.pl

### Lecturers

### Prerequisites

1. The already acquired language competence compatible with level B1 2.The ability to use vocabulary and grammatical structures required on the high school graduation exam regarding productive and receptive skills

### Course objective

1 Advancing students' language competence towards at least level B2. 2 Development of the ability to use academic and field specific language effectively in both receptive and productive language skills. 3 Improving the ability to understand field specific texts 4 Improving the ability to function effectively on an international market and on a daily basis.

### Course-related learning outcomes

Knowledge:

1. Knows german language in the field of grammatical structures and general vocabulary as well as vocabulary specific to the field of Safety Engineering [K1\_W09].

Skills:

1. The student is able to prepare a well-documented study of security engineering problems in Polish and German at the B2 level of the Common European Framework of Reference for Languages [K1\_U10].
2. The student is able to take part in a debate in German and present a problem within the scope of security engineering using appropriately selected means [K1\_U09].

Social competences:

1. The student is able to recognize and use/understand cultural differences in behavior and business and private conversations in German and in a different cultural environment [K1\_K06].

### Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

1. Formative assessment: assessment during language classes: oral performance, written assignments, tests

2. Summative assessment: credit

To obtain a positive assessment the student is obliged to pass the material covered by the program with at least 50%.

### Programme content

Creating communicational skills in academic, business and social situations

Academical, offer, report and business e-mails writing

Developing language competence concerning first of all specialistic vocabulary

Understanding grammatical issues on the B2 level

### Course topics

1. working hours
2. illness and sickness figures
3. means of transport and its characteristic

### Teaching methods

Classroom activities guided by the communicative approach. Using multimedia. Working with text., Mind Maps.

### Bibliography

Basic:

Sander, I./Fügert N./Grosser, R./Hanke, C./Ilse, V./Mautsch, K/Schmeiser, D.: DaF im Unternehmen, Klett, Stuttgart 2016
