

COURSE DESCRIPTION CARD - SYLLABUS

Course name

German [S1IZar1E>NIEM2]

Course

Field of study

Engineering Management

Year/Semester

1/2

Area of study (specialization)

–

Profile of study

general academic

Level of study

first-cycle

Course offered in

English

Form of study

full-time

Requirements

elective

Number of hours

Lecture

0

Laboratory classes

0

Other

0

Tutorials

45

Projects/seminars

0

Number of credit points

1,00

Coordinators

mgr Maja Rakiewicz

maja.rakiewicz@put.poznan.pl

Lecturers

Prerequisites

1. The already acquired language competence compatible with level B1 2.The ability to use vocabulary and grammatical structures required on the high school graduation exam regarding productive and receptive skills

Course objective

1 Advancing students' language competence towards at least level B2. 2 Development of the ability to use academic and field specific language effectively in both receptive and productive language skills. 3 Improving the ability to understand field specific texts 4 Improving the ability to function effectively on an international market and on a daily basis.

Course-related learning outcomes

Knowledge:

The student identifies sources and lists methods and tools for collecting, processing, selecting, and distributing data related to foreign language learning [P6S_WG_08]

Skills:

The student interprets and utilizes basic theoretical knowledge to analyze specific processes and social phenomena in management [P6S_UW_01].

The student prepares written works in foreign language on topics related to management, using basic theoretical approaches and various sources [P6S_UK_01].

The student prepares oral presentations in foreign language on topics in management, using basic theoretical approaches and various sources [P6S_UK_02].

The student possesses language skills in management at the B2 level of the Common European Framework of Reference for Languages [P6S_UK_03].

Social competences:

The student searches for and selects educational and training centers to supplement and improve their knowledge and skills [P6S_KK_01].

The student recognizes cause-and-effect relationships in achieving goals and assesses the significance of alternative or competing tasks [P6S_KK_02].

The student is aware of the importance of behaving professionally, adhering to the principles of professional ethics, and respecting the diversity of views and cultures in the context of management [P6S_KR_02].]

Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

1. Formative assessment: assessment during language classes: oral performance, written assignments, tests

2. Summative assessment: credit

To obtain a positive assessment the student is obliged to pass the material covered by the program with at least 50%.

Programme content

Creating communicational skills in academic, business and social situations

Academical, offer, report and business e-mails writing

Developing language competence concerning first of all specialistic vocabulary

Understanding grammatical issues on the B2 level

Course topics

1. Computer and other electronic devices

2. Logistics and environment

3. Work safety

4. Commercial correspondence

Teaching methods

Classroom activities guided by the communicative approach.

Using multimedia. Working with text. Brainstorming, Mind Maps.
