

## COURSE DESCRIPTION CARD - SYLLABUS

Course name

Functional Exerciss in Physical Adaptation [C\_CS>ZK30]

### Course

Field of study	Year/Semester
Materials and technologies for automotive industry	1/1
Area of study (specialization)	Profile of study
Air Transport Safety	general academic
Unmanned Aerial Vehicles	
Technical Electrochemistry	
Composites and Nanomaterials	
Air Traffic Organisation	
Aircraft Piloting	
Aircraft Engines and Airframes	
Onboard Systems and Aircraft Propulsion	
Organic Technology	
Polymer Technology	
null	
Level of study	Course offered in
first-cycle	Polish
Form of study	Requirements
full-time	elective

### Number of hours

Lecture	Laboratory classes	Other
0	0	0
Tutorials	Projects/seminars	
30	0	

### Number of credit points

0,00

### Coordinators

mgr Agata Ostrowska  
agata.ostrowska@put.poznan.pl

### Lecturers

### Prerequisites

Decision on the degree of disability Long-term sick leave

## Course objective

Compensatory physical education classes are held for students who, for health reasons, cannot participate in sports, have a medical exemption or a disability certificate. Registration for compensatory classes takes place during organizational meetings in the first week of the semester. Students choose one term per week from the three offered and receive credit based on attendance and involvement in the classes. Exercises are prepared and conducted by a physical education teacher and physiotherapist at the same time. According to their condition, students perform exercises according to an individually prepared program. As students return to full fitness, they can join programmed physical education classes. These classes, in addition to assisting and preparing them to function fully, also have a certain integrative aspect, as they are classes in which students from all departments participate at the same time.

## Course-related learning outcomes

Knowledge:

The ability to assess one's dysfunction Knowledge and awareness of how one's body functions

Skills:

Counteracting its effects

Improving motor skills

the ability to cope with dysfunction

Social competences:

The importance of systematic physical activity to maintain fitness Ability to work as part of a team-  
assurance, understanding and empathy

## Methods for verifying learning outcomes and assessment criteria

Learning outcomes presented above are verified as follows:

Credit based on attendance and engagement in class

## Programme content

Dependent on a particular dysfunction, medical condition or temporary inability to exercise The ability  
to assess one's dysfunction

The ability to cope with dysfunction Counteracting its effects Improving motor skills

Knowledge and awareness of how one's body functions The importance of systematic physical activity  
to maintain fitness Ability to work as part of a team-assurance, understanding and empathy

## Course topics

Dependent on a particular dysfunction, medical condition or temporary inability to exercise

## Teaching methods

Analytical methods

Division of motion into phases

## Bibliography

Basic:

Healthy spine' Piotr Józefowski

"corrective and compensatory exercises" Małgorzata Barańska

Additional:

-

## Breakdown of average student's workload

	Hours	ECTS
Total workload	30	0,00
Classes requiring direct contact with the teacher	30	0,00
Student's own work (literature studies, preparation for laboratory classes/ tutorials, preparation for tests/exam, project preparation)	0	0,00
