

Portfolio requirements for candidates who are non-Polish citizens applying for admission to full-time first-cycle studies in architektura/Architecture (2025/2026)

The portfolio should be uploaded to the recruitment system between 7 May and 10 July 2025.

The purpose of the portfolio is to evaluate the candidate's artistic skills, especially:

- mapping three- dimensional space on a two-dimensional drawing surface,
- applying the principles of perspective and chiaroscuro,
- using spatial imagination.

The portfolio is a digital documentation of the candidate's own work (photos, scans). Also, it should include:

- original drawings or graphic works (max. 8 works), combined in one file in jpg or pdf format;
- at least 3 drawings works, completed in pencil on a 50x70 format, with the given subject matter:
 - the human figure in space (a figure and immediate surroundings – drawing made by hand from nature, without the use of a ruler)
 - local architecture (an object and immediate environment – drawing made by hand from nature, without the use of a ruler)
 - spatial composition (a composition consisting of at least 5 elements with different textures and materials (glass, fabric, metal, wood, vegetation), the elements of which may overlap - drawing from the imagination without using a ruler.

The subject matter of the works should show space drawn from nature or from the imagination and take into account the principles of perspective, proper composition of the work, framing, chiaroscuro etc.

The portfolio will be assessed by the Recruitment Commission in terms of the candidate's aesthetic and drawing skills. The following will be assessed:

- application of the principles of perspective (convergent, aerial);
- the use of chiaroscuro, diversity of textures/materials;
- representation of greenery;
- appropriate scaling of additional elements;
- work composition.

By uploading the portfolio to the recruitment system, the candidates declare that all works included in the portfolio have been created by themselves. Poznan University of Technology reserves the right to request the original works.
