How to recognize a dishonest representative?

- s/he promises to speed up the procedure because of connections?
- s/he claims there is a “faster” way to get a residence card?
- s/he persuades that s/he will arrange an appointment “without a queue”?

- Are you sure your representative is following the regulations?
- Are you certain that your representative is acting in your best interests?

The mobility of foreign students

➤ Students with Visa/residence card with „**student**” status from other UE country, who continue studies in Poland

- Contact your University for legalization procedure!

The mobility of the student

Things to keep in mind

- **Notification of student mobility can only be submitted by the host university in Poland**
- **Things you need to fulfill:**
 - be a full-time student or a doctoral student - a citizen of a third country,
 - be covered by an EU program or a multilateral program that includes mobility measures or an agreement between at least two higher education institutions
 - have an intra-EU mobility period of no more than 360 days in each Member State
 - hold a residence permit or a long-stay visa, with the notation “**student**”, issued by another EU member state (*note! does not apply to Ireland and Denmark*)
 - the period of validity of your residence permit or long-term visa should cover the entire period of planned mobility in Poland
- **How does it work:**
 - the university hosting the student in Poland submits a notification to the Office for Foreigners
 - the procedure related to processing the notice does not legalize your stay in Poland, so the notice should be submitted before you arrive in Poland or immediately after your arrival
 - within 30 days of filing the notification, the Office for Foreigners expresses its objection - if there are reasons not to grant mobility or does not respond to the notification (silent consent to mobility in Poland)
